

Image Guided Biopsy

Study: _____

Your Provider has ordered an image guided biopsy for you.

Here are the steps that will be taken:

- I. Christie Clinic ENT staff will work on insurance prior-authorization for this imaging study.
 - a. If one week has passed and you have not yet received a phone call for scheduling, please contact Christie Clinic ENT at 309.663.4368 for an update.
- II. Once prior-authorization is approved, you will get a call from Christie Clinic ENT or the imaging facility itself. You will then schedule a date and time for the imaging study.
- III. Once you have scheduled your biopsy, please call Christie Clinic ENT to schedule a follow-up appointment to review your results with the ordering provider. This appointment should be scheduled for no sooner than 10 days after the biopsy, allowing time for analysis.
- IV. Undertake your biopsy. Follow directions provided by the radiology.
- V. Review the results with your physician at your scheduled follow-up appointment (from step III, above).
