

form “OR-F” Lansford Preferences for DISE (Drug Induced Sleep Endoscopy)

QR for online color
version. Select
Form “OR-F”

👉 Preferences, Pick Sheet, and “Anything Special?”

Note: May go on to perform the Inspire implant surgery, if posted as such and if the patient passes the DISE. (Reference form “OR-K” for Inspire guidelines.)

Color code:

Surgeon

Anesthesia

Scrub Tech

Circulating Nurse

Surgical Assistant (Not necessary for this case)

Pre-op

Surgeon signs chart, and reviews his own consent form with patient and a witness **prior to** administration of an anxiolytic or other medication rendering a patient incompetent to sign.

Minors may receive an anxiolytic prior to the surgeon’s consent since they are not signing.

Afrin (oxymetazoline), 2 sprays to each nostril in pre-op holding area.

Prep Tray

Defog and moist white gauze nearby for scope.

Instruments & Supplies

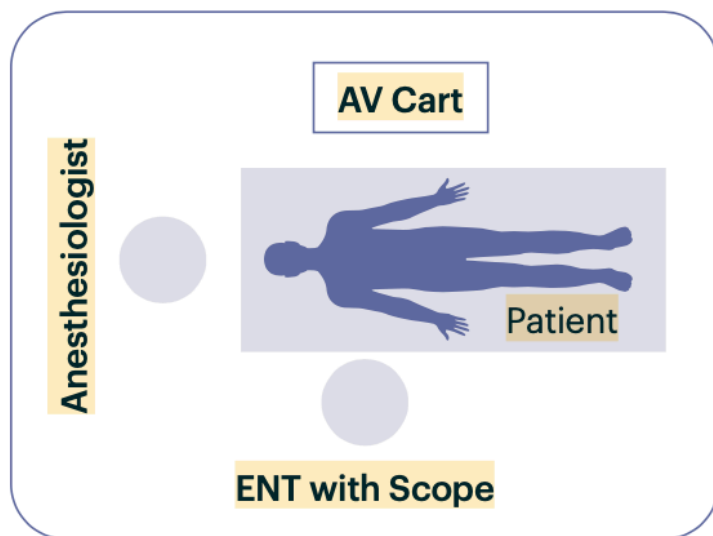

Flexible fiberoptic laryngoscope (TCOM may borrow from clinic)

Equipment

Flexible fiberoptic laryngoscope (TCOM may borrow from clinic)

Patient in Room to Induction

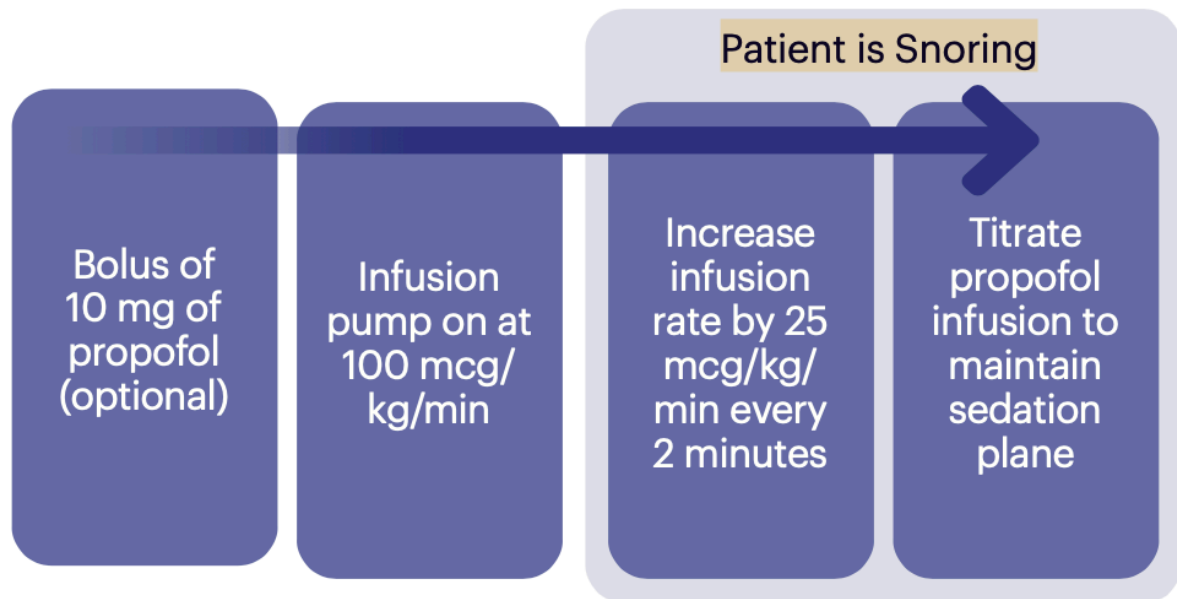

Suggested Operator and Equipment Positioning

- Patient supine
- Leave patient on gurney
- Quiet procedure room with lights dimmed
- Record video on A/V tower

From Induction to Start

Anesthesia Protocol

DO NOT OVERSEDATE!

Could result in inappropriate disqualification
from Inspire candidacy

Mid Operation

No Music and minimal background discussion, please.

Closing

Save video recording to USB drive. Kyle Baner (Inspire Rep) will facilitate.

Emergence to Patient Exit

May go on to perform Inspire Implantation—see form “OR-K” for guidelines

Thank you for reading this!
